BETABEET™
Powdered juice from
organically grown beets

description

BetaBeet™ is a soluble powder made from the juice of organically-grown beets and contains a variety of vitamins, minerals, and phytonutrients including folic acid, iron, calcium and betaine. Like BarleyGreen®, BetaBeet™ is produced from seed to finished product using organic cultivation, gentle juicing, and our award-winning, low-temperature spray-drying process. Our special processing stabilizes the nutrients in the beet juice, providing you with live enzymes and whole food nutrition which is certified organic. The result is a delicious and nutrient-dense beet juice powder that provides you with the nutrients and detoxification power of fresh beets.

benefits

Beets help to detoxify the liver and blood while providing important support nutrients to the body. In addition, beets may protect the cardiovascular system, enhance fat metabolism and increase muscle mass.

Detoxification: The liver performs many functions including the use, storage, and deactivation of dietary-derived substances. BetaBeet™ provides nutrients critical to liver function and aids in the breakdown of toxins before they accumulate; thereby, helping to protect the liver. The vitamins and other nutrients contained in beets are intimately involved with proper fat absorption, transportation, and metabolism.

Cardiovascular Support: Betaine also plays an important role in the health of the cardiovascular system. Like vitamin B6 and folic acid, betaine helps reduce high blood levels of the amino acid homocysteine, which can be a risk factor for arteriosclerosis.

Fat Metabolism and Protein Deposition:

Another important benefit from consuming beets is its potential for promoting fat metabolism and protein deposition leading to a leaner, healthier body.

BetaBeet™ Attributes: While juicing is a great health boost for everyone, it is a major inconvenience and an expensive proposition. Drinking BetaBeet™ is easy and requires almost no preparation or clean up and is a cost-effective way of getting valuable nutrition. BetaBeet™ is suitable for both adults and children and the taste and color will appeal to everyone. In addition, BetaBeet is low in calories, carbohydrates and sugar. BetaBeet's nutrients are quickly absorbed by your body. It taste great by itself or mixed with BarleyGreen® and Beta Carrot™.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Ingredients: Juice from organic beets and organic maltodextrin (a complex carbohydrate).

Contains no added sugar or salt, no colorings or fillers and is free of animal products, gluten, soy, wheat and yeast.

Suggested Use: Dissolve 3 teaspoons of BetaBeet™ into a 6oz glass of cold water. Tastes great mixed with BarleyGreen® and BetaCarrot™. Recommended once daily on an empty stomach.
